

## 8th Asian Pacific Federation of Societies for Surgery of Hand

Date: 2009/11/13, Fri

Venue: E-DA Hospital Conference Center (1F-Main Auditorium)

		Time	Topic	Speaker	Moderator
8:00-9:00	Congenital hand symposium	8:00-8:20	Reconstruction of residual deformity for thumb polydactyly	Emiko Horri	Mark Allison
		8:20-8:40	Treatment of Wassel's type 5 and 6 thumb polydactyly	Toshihiko Ogino	
		8:40-9:00	The application of toe transfer for digits deficiency on children's hands	Yuan-Kun Tu	
9:00-10:00	Plenary Lecture1	9:00-9:30	Wrist and finger baldness in hand surgery	Michael Tonkin	Bruce Conolly
	Plenary Lecture2	9:30-10:00		Fu-Chan Wei	
10:00-10:30	Tea Break				
10:30-11:30	Tajima Memorial Lecture		From the Microsurgery to the Risk Management of Hand Surgery	Yoshikazu Ikuta	Panupan Songcharon
11:30-12:00	Opening Ceremony				
13:00-14:30	Plenary Lecture3	13:00-13:30	Functional results of microsurgical reconstruction in congenital hand deformities	Simo Vilkki	Alexander Shin
	Plenary Lecture4	13:30-14:00	Adult Brachial Plexus Reconstruction with The Level of Injury : Review and Personal Experience	David Chuang	
	Plenary Lecture5	14:00-14:30	Experience in Adult BPAI Treatment by Using Neurotization	Wen-Dong Xu	
14:30-15:00	Tea Break				
15:00-16:00	BPI Symposium( I )	15:00-15:20	Advanced Management of Total Brachial Plexus Palsy by Double Free Muscle Transfer Procedure	Kazuteru Doi	Kazuteru Doi
		15:20-15:40	Shouder reconstrion by nerve transfers in upper arym tpyed brachial plexus injury	Somsak Leechavengvongs	
		15:40-16:00	Intercostal nerve transfers	Preecha Chailidapong	
16:20	Bus Departure for Sunset Cruise				

Date:2009/11/13,Fri

Venue: E-DA Hospital Conference Center (B1F-Meeting RoomA)

		Time	Topic	Speaker	Moderator
8:00-9:00	Microsurgery / Flap Symposium	8:00-8:30	Perforator flap of forearm - anatomy & clinical application	Alexander Kai-yiu Choi	Moroe Beppu
		8:30-9:00	Joint reconstruction with free vascularized osteochondral graft in upper extremity	Duke Whan Chung	
13:00-14:30	APFSHT	13:00-13:10	Opening speaking	Rosemary	
		13:10-13:40	APFSHT History Review	Rosemary	
		13:40-14:30		Ton	
14:30-15:00	Tear Break				
15:00-16:00	APFSHT Tendon Injury (I) Symposium I	15:00-15:15	Comparison of Outcome Measurement Methods For Extensor Tendon Injury - Literature Review and Clinical Application(197)	Tsu En Tan	
		15:15-15:30	he results of extensor tendon repair in zone I to zone IV managed with static splint in Chung-Gung Memorial Hospital(225)	Chung-Ping Lu	
		15:30-15:45	Use of embedded metallic coil (EMC) as a mean of dynamic traction in post-operative splinting for flexor tendon injuries(244)	Ken C. M. WONG	
		15:45-16:00	Discussion		
16:20	Bus Departure for Sunset Cruise				

Date: 2009/11/13,Fri

Venue: E-DA Hospital Conference Center (B1F-Meeting Room B)

		Time	Topic	Speaker	Moderator
8:00-9:00	Free Paper1 (Trauma I)	8:00-8:10	Treatment of Trans-scaphoid perilunate fracture-dislocation	Po-Jung Chu	Ryosuki Kakinoki
		8:10-8:20	Immediate mobilization with soft wrap pressure splint in boxers fractures	MasahiroTobe	
		8:20-8:30	Treatment of finger fractures with HA/PLLA composite pins	Takaaki HASUO	
		8:30-8:40	SESAMOID CAUSED IRREDUCIBLE ROTARY SUBLUXATION OF METACARPOPHALANGEAL JOINT OF THUMB	Chi Hungyen	
		8:40-8:50	Managing Complex PIPJ articular fractures with early motion using dynamic traction	Kamilbin Mohd. Kasim	
		8:50-9:00	Miniexternal fixator for neck of the proximal phalanx (P1) and metacarpal head fracture; innovation technique	Samranpookhang	
9:00-10:00	Free Paper4 (Arthroscopy / TFCC)	9:00-9:10	Arthroscopic decompression of volar ganglion of the wrist joint	In-Hyeok Rhyou	Pak-Cheong Ho
		9:10-9:20	Various patterns of triangular fibrocartilage complex tear: A new classification and repair	Yukio Abe	
		9:20-9:30	Classification of ulna attachment of triangular fibrocartilage complex	Toshikazu Tanaka	
		9:30-9:40	The necessity of arthroscopic assessment in volar locking plate fixation for distal radius fractures	Yukio Abe	
		9:40-9:50	Clinical results of arthroscopic surgery for TFCC tear	Chi Hungyen	
		9:50-10:00	Arthroscopic Reduction with Cosmetic Approaching (ARC) technique for Distal Radius Fracture	KOJI SHIGEMATSU	
10:00-10:30	Tea Break				
13:00-14:30	Plenary Lecture6	13:00-13:30	The ulnar impaction syndrome	Moon Sang Chung	Michael Tonkin
	Plenary Lecture7	13:30-14:00	Artificial Nerve Conduits Containing Bone-Marrow-Derived Cells	Ryosuki Kakinoki	
	Plenary Lecture8	14:00-14:30	Tendon surgery of the hand for fingers extension	Soo Hong Han	
14:30-15:00	Tea Break				
15:00-16:00	Plenary Lecture9	15:00-15:30	Hand Biomechanics–sensation,coordination and function	Fong-Chin Su	Chih-Kun Hsiao
	Plenary Lecture10	15:30-16:00		Chih-Han Chang	
16:20	Bus Departure for Sunset Cruise				

Date: 2009/11/13, Fri

Venue: E-DA Hospital Conference Center (A1F-Meeting Room C)

		Time	Topic	Speaker	Moderator
8:00-9:00	Free Paper 2 (Research I)	8:00-8:10	Pull Out Tendency Of Monofilament, Multifilament And Flat Nickel-Titanium Wire From Flexor Tendon Tissue: A Biomechanical Study With Human Cadaver Tendons.	Teemu Karjalainen	Chih-Kun Hsiao
		8:10-8:20	Nickel-Titanium Wire In Circumferential Suture Of The Flexor Tendon Repair: A Comparison To Polypropylene.	Teemu Karjalainen	
		8:20-8:30	Mesenchymal Stem Cells Prolong Composite Tissue Allotransplantation Survival by T-cell regulation in a Swine Model	Yur-Ren Kuo	
		8:30-8:40	Minimal invasive anatomy of the cutaneous branches-chain flap pedicled with cutaneous branches	Zi-Hai Ding	
		8:40-8:50	Repair of 30mm median nerve gap by direct lengthening of both nerve stumps in primates	Null Sharula	
		8:50-9:00	Estimation of the Length of the Palmaris Longus Tendon: A Cadaver Study of Adult Malaysians	Manohar Arumugam	
12:00-13:00	AO Luncheon Symposium	12:05-12:25	The Columnar Theory of Distal Radius Fractures-Fragment Specific Fixation	Jessee Jupiter	Yuan-Kun Tu
		12:25-12:40	Malunions of the Distal Radius	Jessee Jupiter	
		12:40-12:50	Case Discussion	Chao-Yu Chen	
		12:50-13:00	Case Discussion	(Ying-Chao Chao	
13:00-14:30	Free Paper 5 (Distal Radius)	13:00-13:10	Result of@ORIF with sole volar locking plate for AO-TypeC distal radius fracture involving the comminution of dorsal rim	Tatsuji Fujiwara	Chao-Yu Chen
		13:10-13:20	Palmar Fixation of Unstable Dorsally Displaced Distal Radius Fractures Using Locking Plates with SmartLock Locking Screws	Wongtak Chuen	
		13:20-13:30	Classification and management of intra-articular fractures of the distal radius by preoperative CT scanning	Gen Kuroyanagi	
		13:30-13:40	Plate Fixation of AO Type C3 Fractures of the	Eun Sun Moon	

			Distal Radius		
		13:40-13:50	Plate Fixation For Unstable Distal Ulna Fractures In Elderly Women	Hidetoshi Teraura	
		13:50-14:00	Minimally Invasive Plate Osteosynthesis of Distal Radius Fractures with a Comminution of the Metaphysis	Junya Imatani	
		14:00-14:10	Treatment of adolescent distal radial fractures with bioabsorbable implants	Kao-Shang Shih	
		14:10-14:20	Clinical results of volar locking plate for distal radius fractures:	Yukichi Zenke	
		14:20-14:30	The analysis of intraarticular soft tissue injuries combined with extraarticular distal radius fracture	Yasuhiro Tominaga	
14:30-15:00	Tea Break				
15:00-16:00	Free Paper 6 (Microsurgery I)	15:00-15:10	Clinical application of Peroneal Perforator Flap	Akito Nakanishi	Josephine WY Ip
		15:10-15:20	Heterotopic Replantation for Thumb Reconstruction	Hari Venkatramani	
		15:20-15:30	The application of the plastic operation with retain cutaneous vessels in thinning fat free flap at one stage	Haifeng SHI	
		15:30-15:40	Finger Soft Tissue Reconstruction Using Arterialized Venous Free Flaps Having 2 Parallel Veins	Byeong Seon Kong	
		15:40-15:50	Arterialized Venous Free Flap Using the Thenar Region for the Reconstruction of the Pulp Defect of Fingers	Byeong Seon Kong	
		15:50-16:00	Aggressive treatment of replanted fingers around the proximal phalanx	Hiroyuki Gotani	
16:20	Bus Departure for Sunset Cruise				

Date: 2009/11/13, Fri

Venue: E-DA Hospital Conference Center (A1F-Meeting Room D)

		Time	Topic	Speaker	Moderator
8:00-9:00	Free Paper 3 (Tendon)	8:00-8:10	Outcome of Open Trigger Digit Release	Wei Ting Lee	Yin-Chih Fu
		8:10-8:20	Review of limited fasciectomy for Dupuytren's disease in Chinese population	Siu Ho Wan	
		8:20-8:30	1,2 intercompartmental suprapretinacular artery can be a landmark for surgery of de Quervain's disease	In-hyeok Rhyou	
		8:30-8:40	Trigger thumbs in Children- results of surgical release	Priscilla Oi	
		8:40-8:50	Triggering of Extensor pollicis longus: Case report	Suriya Luena	
		8:50-9:00	Symptomatic Flexor Carpi Radialis Brevis. Case Report	Arkaphat Kosiyatrakul	
12:00-13:00	Yung Shin Luncheon Symposium		Postoperative pain: who? how? when?	Wei-Zen SUN	
13:00-14:30	Arthroscopy Symposium(I)	13:00-13:30		Christophe Mathoulin	Christophe Mathoulin
		13:30-14:00	Arthroscopic reconstructive surgery of the wrist- how far it can go?	Pak-Cheong Ho	
		14:00-14:30	Arthroscopically assisted treatment of wrist fractures	Jui-Tien Shih	
14:30-15:00	Tea Break				
15:00-16:00	Arthroscopy Symposium(II)	15:00-15:20	Arthroscopic Release of Post-traumatic Painful Metacarpophalangeal Joint of the Thumb	Alexander Kai-yiu Choi	Pak-Cheong Ho
		15:20-15:40	Arthroscopic Resectional Arthroplasty and Soft Tissue Interposition for Arthritis of Basal Joint	Jui-Tien Shih	
		15:40-16:00		Christophe Mathoulin	
16:20	Bus Departure for Sunset Cruise				

Date: 2009/11/14, Sat

Venue: E-DA Hospital Conference Center (1F-Main Auditorium)

		Time	Topic	Speaker	Moderator
8:00-9:00	Plenary Lecture 11 (Congenital)	8:00-8:30	Clinical features and teratogenic mechanisms of congenital absence of digits	Toshihiko Ogino	Yuan-Kun Tu
	Plenary Lecture 12 (Congenital)	8:30-9:00	Difficult vascular malformations of hand and upper extremity	Simo Vilkki	
9:00-10:00	Plenary Lecture 15 (BPI)	9:00-9:30	An Update of Treatment of Carpal Instability	Alexander Shin	David Chuang
	Plenary Lecture 16 (BPI)	9:30-10:00	Reconstruction after brachial plexus injuries in adults - strategy	Christopher Oberlein	
10:00-10:30			Tea Break		
10:30-12:00	Carpal Bone Symposium	10:30-11:00	The evolution of the vascularized bone graft: where are we today?	Alexander Shin	Akio Minami
		11:00-11:30	Carpal Instability	Akio Minami	
		11:30-12:00	Reduction of DISI deformity of the wrist	Ryogo Nakamura	
		13:00-13:20	Gracilis-adductor longus muscle transfers for patients with brachial plexus injuries	Yuan-Kun Tu	
13:00-14:30	BPI Symposium( II )	13:20-13:40	Supermicrosurgery of nerves	Aymeric YT Lim	Ming-Chung Yeh
		13:40-14:00	C7 tranfer for BPI	Lei Xu	
		14:00-14:20	Radial nerve triceps branch for nerve transfer in BPI	Kanit Sanapanich	
		14:20-14:30	Discussion		
14:30-15:00			Tea Break		
15:00-16:30	Plenary Lecture 25	15:00-15:30	A new method for peripheral nerve gap repair without nerve grafting. ---Gradual elongation of both nerve stumps in Macaca fascicularis	Naoyuki Ochiai	Mark Allison
	Plenary Lecture 26	15:30-16:00	Combined revascularization and microvascular tissue transfer in total and near-total mputation of upper limb – KMU experience	Kao-Ping Chang	
	Plenary Lecture 27	16:00-16:30	The Assessment and Management of Posttraumatic Deformities of the Distal Radius	Jesse Jupiter	
16:30-17:30	MIPO/ Trauma Symposium	16:30-16:50		Ching-Hou Ma	Jesse Jupiter
		16:50-17:10	MIPO in upper extr Trauma	Yasunori Shimamura	
		17:10-17:30	Minimally Invasive Surgery in Distal Radius Fracture	Chao-Yu Chen	
		17:30-18:00	The Management of the Mutilated Hand	Jesse Jupiter	
19:00	Taiwanese Banquet Night				

Date: 2009/11/14, Sat

Venue: E-DA Hospital Conference Center (B1F-Meeting Room A)

		Time	Topic	Speaker	Moderator
		8:00-8:15	The Correlation between Self-perceived Health, the Modified Hand Injury Severity Score, and Return to Work(130)	Yueh-Hsia Chen	
		8:15-8:30	Time off Work Predicts Return-to-work following Work-related Upper Limb Injuries(48)	Yueh-Hsia Chen	
8:00-9:10	APFSHT Work Rehabilitation Symposium II	8:30-8:45	The Effect of Work-Hardening Program for Return-to-Work for Occupational Injury Labors(25)	Shwu-huei Lien	
		8:45-9:00	The relationship between functional disability and impairment rating for work-related upper limb injury(92)	Yi-Jen Wang	
		9:00-9:10	Discussion		
9:10-10:00	APFSHT			Judy	
10:00-10:30			Tea Break		
		10:30-10:45	Evaluation of a Treatment Protocol for Distal Radius Fracture: A Prospective Outcome Study(194)	Siew Seang ONG	
		10:45-11:00	Intensive rehabilitation results after dynamic traction splint for intra-articular hand fracture(84)	Hsiu-Yun Hsu	
10:30-12:00	APFSHT Fractures Symposium III	11:00-11:15	Prospective Outcomes of Metacarpal Fractures(90)	Jen-Mu Chang	
		11:15-11:30	Follow-up of Cases Treated with Traction Splints for Digital Fracture(19)	Jui-Kun Chang	
		11:30-11:45	Discussion		
		13:00-13:10	Specialization in hand therapy practice in Asia(245)	Li-Tsang, C.W.P.	
13:00-14:00	AFPSHT Hand Therapy Practice in Asia countries	13:10-13:20			
		13:20-13:30			
		13:30-13:40			
		13:40-14:00	Discussion		
14:00-15:00	APFSHT Tendon Injury (II) Symposium IV	14:00-14:15	Functional outcome of the hand after flexor tendon repair(94)	Yuh-Jiun Chen	
		14:15-14:30	Functional outcome of flexor tendon repair in Taiwan(53)	Jen-Suh Chern	
		14:30-14:45	The results of extensor tendon repair in zone V to zone VII managed with static splint in Chung-Gung Memorial Hospital(95)	Chung-Ping Lu	
		14:45-15:00	Discussion		
15:00-15:20			Tea Break		
15:20-16:40	APFSHT Biomechanics issue	15:20-15:35	The Digits Coordinated Pattern of the Patient with Carpal Tunnel Syndrome during Jar Opening and Closing(189)	Kuo-Chen Wu	

	Symposium V	15:35-15:50	Develop a novel bio-interface system in sensory evaluation and re-education for clinical applications(143)	Hsiu-Yun Hsu
		15:50-16:05	Biomechanical Analysis of Hand during Piano Playing: Concerns of Hand Size(212)	Kuan-Yin Lai
		16:05-16:20	Biomechanical Analysis of Handwriting Movements for Patients with Carpal Tunnel Syndrome(141)	Hsiao-Man Hsu
		16:20-16:40	Discussion	
		16:40-16:52	Innovation in pressure therapy: The SPMS (Smart pressure monitored suit in management of hypertrophic scar(246)	Li-Tsang, C.W.P.
16:40-17:30	APFSHT Free Paper	16:52-17:04	Exploration of Shoulder Problem for Head and Neck Cancer Patients(210)	Chia-Chieh Li
		17:04-17:16	Functional sensory re-education programs for the peripheral nerve injury patients(160)	Hsiu-Yun Hsu
		17:16-17:30	Discussion	
19:00	Taiwanese Banquet Night			

Date: 2009/11/14, Sat

Venue: E-DA Hospital Conference Center (B1F-Meeting Room B)

		Time	Topic	Speaker	Moderator
8:00-9:00	Plenary Lecture 13 (Trauma)	8:00-8:30	Experiences in managing various hand injuries in Surabaya-Indonesia	Heri Suroto	Woo-Kyung Kim
	Plenary Lecture 14 (Trauma)	8:30-9:00		Toe transfer for hand trauma	
9:00-10:00	Plenary Lecture 17	9:00-9:30	Principles of muscle innervation	Moroe Beppu	Chen-Lung Liang
	Plenary Lecture 18	9:30-10:00			
10:00-10:30			Tea Break		
10:30-12:00	Plenary Lecture 19	10:30-11:00	Upper extremity surgery for cerebral palsy	Hyun Sik Gong	Bruce Conolly
	Plenary Lecture 20	11:00-11:30	Ischemic hand	Hee Chang Ahn	
	Plenary Lecture 21	11:30-12:00	Compression Neuropathy: Its pathophysiology, Diagnosis & Surgical Treatment	Kwan-Chul Tark	
12:00-13:00	Pain Control Luncheon Symposium			Alex Yeo	Yuan-Kun Tu
13:00-14:30	Plenary Lecture 22	13:00-13:30	DRUJ Instability	Anthony Berger	Stephen Coleman
	Plenary Lecture 23	13:30-14:00	Lunate revascularization	Hiroshi Yajima	
	Plenary Lecture 24	14:00-14:30	ECTR	Stephen Coleman	
14:30-15:00			Tea Break		
15:00-16:30	Wrist / Hand Fracture	15:00-15:30	Operative Fixation of Intra-articular Fractures of the Hand	Winston Chew	Winston Chew
	Symposium	15:30-16:00	External devices for management of problems of the Fingers	Sara Tunku	
	Hand /	16:00-16:30	Replantation surgery for severe wrist and hand trauma	Guo-Xian Pei	
16:30-17:30	Microsurgery	16:30-17:00	Microsurgical reconstruction for hand trauma	Yeong-Pin Peng	Jeong Tae Kim
	Symposium	17:00-17:30	Free Flaps of Proper Thickness for Reconstruction of the Upper Extremity	Hung-Chi Chen	
19:00	Taiwanese Banquet Night				

Date: 2009/11/14, Sat

Venue: E-DA Hospital Conference Center (A1F-Meeting Room C)

		Time	Topic	Speaker	Moderator
		8:00-8:10	Scar Sequelae after Surgery of Carpal Tunnel Syndrome	Masaharu Makino	
		8:10-8:20	Factors Affecting Willingness to Undergo Carpal Tunnel Release	Moon Sang Chung	
		8:20-8:30	Medial Nerve Mobility in Carpal Tunnel Syndrome	Jui-Tien Shih	
8:00-9:00	Free Paper 7 (CTS)	8:30-8:40	Endoscopic carpal tunnel release using modified Chow's extrabursal dual portal technique	Tae Kong Kim	Hin-Keung Wong
		8:40-8:50	Epidemiology of Clinically Diagnosed and Surgically Treated Carpal Tunnel Syndrome in the Korean General Population	Young Hak Roh	
		8:50-9:00	Stonefish Envenomation with Acute Carpal Tunnel Syndrome	Chi Hungyen	
		9:00-9:10	Review of benign neurilemoma in upper limbs	Siu Ho Wan	
		9:10-9:20	The Surgical Treatment of Mucous Cyst on Finger without Rotation Flap	Yuko Hoshino	
		9:20-9:30	Tumors around the Fingertips	Abhijeet L. Wahegaonkar	Chih-Hao Chang
9:00-10:00	Free Paper 9 (Tumor / Infection )	9:30-9:40	Necrotizing Fasciitis of the Upper Limb in Hong Kong	Sheung-tung HO	
		9:40-9:50	Open excision of Dorsal Wrist Ganglion : A comparison of the scars produced with different incisions	Maninder Singh	
		9:50-10:00	Treatment for Wrist / Hand giant cell tumor with free vascularized bone graft	Yuan-Kun Tu	
10:00-10:30			Tea Break		
		10:30-10:40	Treatment of a type 3b-hypoplastic thumb using an excessive digit of the contralateral duplicated thumb	Ryosuke Kakinoki	
		10:40-10:50		Suk Joon Oh	
		10:50-11:00	Reconstruction of Congenital Floating Thumb	Dukewhan Chung	
10:30-12:00	Free Paper11 (Congenital)	11:00-11:10	Bilhaut Procedure for Wassel Type III and IV Radial Polydactylies	Yuan-Cheng Chiang	Yan-Kit Lau
		11:10-11:20	Bilhaut Procedure for Triphalangeal Radial Polydactyly	Yuan-Cheng Chiang	
		11:20-11:30			
		11:30-11:40	Ulnar polydactyly V A series of sixteen patients in southern Taiwan	Chien-Chang Chen	
		11:40-11:50	Surgical Management of Aperts Hand V A series of nine patients	Hsiang-Shun Shih	
		11:50-12:00	Hypoplastic thumb with tight cutaneous syndactyly to the adjacent finger	Hiroshi Satake	
12:00-13:00	Trauma Luncheon Symposium		Clinical Experiences of Micronail	Chao-Yu Chen	Ching-Hou Ma
13:00-14:30	Elbow Symposium	13:00-13:20	Treatment of traumatic valgus elbow injury	Chun-Ying Cheng	Fuminori

		13:20-13:40	Releasing of elbow contracture	Emiko Horri	Kanaya
		13:40-14:00		張至宏	
		14:00-14:30	Mobilization of the congenital proximal radioulnar synostosis with a vascularized fascio-fat graft	Fuminori Kanaya	
14:30-15:00			Tea Break		
		15:00-15:10	Corrective Osteotomy of Malunited Both Bone Forearm Fractures Using Computer Simulation	Tsuyoshi Murase	
		15:10-15:20	Delayed rupture of extensor pollicis longus tendon after distal radius fracture	Dukewhan Chung	
		15:20-15:30	Hand Fractures in Singapore Children V An Epidemiological Study	Darryl Ee Ming Chew	
		15:30-15:40	Treatment of Metacarpal Fractures with Intramedullary Absorbable Implants	Ge Xiong	
15:00-16:30	Free Paper14 (Trauma II)	15:40-15:50		Siau Woon Jacqueline Tan	Chi-Hung Yen
		15:50-16:00	Distal Radius Fractures - An epidemiological review	Kevin Koo	
		16:00-16:10	Volar approach for open reduction of complex index metacarpophalangeal joint dislocation	Soo-JoongChoi	
		16:10-16:20	Trans-web Approach for Fixation of Avulsion Fractures of the Proximal Phalangeal Base	Eichi Itadera	
		16:20-16:30	Reconstruction of Complex Defect in the Hand	Koung Moo Yang	
		16:30-16:40	Volar plate arthroplasty for PIP joint fracture dislocations	Terrence Jose Jerome	
		16:40-16:50	Surface Replacement Arthroplasty for the Proximal Interphalangeal Joint	Andre Eu Jin Cheah	
		16:50-17:00	4corner fusion with Xpode plate fixation	Patrick Michael Houvet	
16:30-17:30	Free Paper 16 (Arthritis I)	17:00-17:10	Effect of preoperative wrist deformity on the results of the Sauv-Kapandji procedure to treat rheumatoid arthritis of the wrist	Yoshihiro Dohi	Te-Yang Wu
		17:10-17:20	Bilateral Kienbcks Disease in a 14-Year-Old Male Treated with Temporary Scaphotrapezio-Trapezoidal Joint Fixation: A Case report	Takamasa Shimizu	
		17:20-17:30	Instability of the Distal Radioulnar joint (DRUJ) - A Description of the Problem and Own Experience with Early Results.	Abhijeet L.Wahegaonkar	
19:00	Taiwanese Banquet Night				

Date: 2009/11/14, Sat

Venue: E-DA Hospital Conference Center (A1F-Meeting Room D)

		Time	Topic	Speaker	Moderator
		8:00-8:10	Long-term storage of peripheral nerve segments using green tea polyphenol solution	Ryosuke Ikeguchi	
		8:10-8:20	The Laboratory Risk Indicator for Necrotizing fasciitis (LRINEC) Score: A Prospective Validation Study in the Upper Limb	Darryl Ee Ming Chew	
8:00-9:00	Free Paper8 (Research II)	8:20-8:30	Model for skill acquisition in surgery	Vaikunthan Rajaratnam	Yur-Ren Kuo
		8:30-8:40	Comparison of different repair techniques in rabbit medial gastrocnemius muscle laceration	Min He	
		8:40-8:50	Vascularized Brachial Plexus Allotransplantation -- experimental study in rats	Kuang-Te Chen	
		8:50-9:00	The 75% partial flexor tendon laceration: an in vitro biomechanical assessment of repair versus non-repair.	Roger Haddad	
		9:00-9:10	Modified fluoroscopic imaging technique for the central screw placement in percutaneous screw fixation of scaphoid fracture	Jong Woong Park	
		9:10-9:20	Surgical Outcome of Stable Scaphoid Nonunion without Bone Graft	Eun Sun Moon	
9:00-10:00	Free Paper10 (Wrist /Scaphoid)	9:20-9:30	TREATMENT OF SCAPHOLUNATE DISSOCIATION	Duke Whan Chung	Jui-Tien Shih
		9:30-9:40	Treatment for scaphoid nonunionXthe application of 3.0 mm cannulated screws and pedicle vascularised bone grafts	Ching-Hou Ma	
		9:40-9:50	Vascularized bone graft transfer for Kienbck disease	Chin-Hsien Wu	
		9:50-10:00	The use of cannulated screw vs herbert screw in the closed management of unstable displaced scaphoid fracture; the evaluation of radiological and clinical outcome.	Nucki Nursjamsi Hidajat	
10:00-10:30			Tea Break		
		10:30-10:40	Simultaneous Nerve Transfer to Deltoid and Triceps Long Head Muscle using 4 Intercostal nerves: An anatomic study and 5 case reports	Kanchai Malungpaishrope	
10:30-12:00	Free Paper12 (BPI I)	10:40-10:50	Sensory Nerve Transfer for C5 and C6 Brachial Plexus Root Avulsions	Kitipod Ngamlamaidt	Somsak Leechaven
		10:50-11:00	Nerve Transfers for Elbow Reconstruction in Brachial Plexus Injuries	Emmanuel Pantaleon Estrella	gvongs
		11:00-11:10	Muscle transfers for Elbow Reconstruction in Brachial Plexus Injuries	Emmanuel Pantaleon Estrella	

		11:10-11:20	Pectoralis minor transfer to improve elbow flexion and forearm supination in birth lesions of the brachial plexus	Andrew Yam	
		11:20-11:30	Nerve Transfer to Serratus Anterior Muscle Using the Thoracodorsal Nerve for Winged Scapula in C5 and C6 Brachial Plexus Root Avulsion	Chairoj Uerpairojkit	
		11:30-11:40	Prognosis of Saturday night palsy	Soo Hong Han	
		11:40-11:50	Restoration of Elbow Flexion After C5, C6, and C7 Roots Injury	Kiat Witoonchart	
		11:50-12:00	Outcomes of Nerve Reconstruction for Radial Nerve Injuries Based on The Level of Injury in 244 Operative Cases	David. Chwei-Chin Chuang	
12:00-13:00	Lilly Luncheon Symposium			Erik Lindh	Shang-Wo n Yu
		13:00-13:10	My Way Is Better Than Your Way. Can Personality Affect Technical Performance Of Microsurgical Trainees?	Teemu Karjalainen	
		13:10-13:20	Central approach for thigh perforator free flaps	Byeong Seon Kong	
		13:20-13:30	A Reflection On The Evolution of Microsurgery	Ee-San Phoon	
		13:30-13:40	Thumb replantations in the avulsion amputations-Analysis of 11 cases	Rajendra Nehete	
		13:40-13:50	Bilateral second toe transfer for thumb reconstruction V A case report & functional evaluation.	Rajendra Nehete	Wing-lim Tse
13:00-14:30	Free Paper13 (Microsurgery II)	13:50-14:00	Heterotopic Transplantation of Vascularized Joint in Mutilating Hand Injury	Yu-Te Lin	
		14:00-14:10	Microsurgical workhorses for limb trauma reconstruction: Experience, Rationale and Outcomes in an Academic Microsurgical Unit	Aaron Gan	
		14:10-14:20	Degloving thumb with retained nailbed in a free flap -- A long-term follow-up	Yun-Ta Tsai	
		14:20-14:30	Fingertips replantation, a worthwhile operation?	Hi-shan Cheng	
14:30-15:00			Tea Break		
		15:00-15:10	Long term result of spinal reimplantation for total brachial plexus avulsion	Andrew Yam	
		15:10-15:20	Multiple Nerve Transfers For Upper Brachial Plexus Avulsion Injury	Hari Venkataramani	Wen-Dong Xu
15:00-16:30	Free Paper 15 (BPI II)	15:20-15:30	Free Gracilis Muscle transfer in patients with severe brachial plexus injury to restore prehensile hand function: Using the brachialis branch of the Musculocutaneous nerve as the donor nerve	Esther CS Chow	

		15:30-15:40	Traumatic Open Brachial Plexus injuries : A review of 9 cases	Vaikunthan Rajaratnam	
		15:40-15:50	Restoration of shoulder forward flexion in C 5 and 6 root injuries with the nerve to the long head of the triceps transfer through the deltopectoral approach	Saichol Wongtrakul	
		15:50-16:00	Diaphragmatic Height Index as the New Diagnostic Test for Phrenic Nerve Dysfunction	Chaturong Pornrattanamaneewong	
		16:00-16:10	Contra-lateral C7 transfer and free functioning muscle graft for brachial plexus injury	Cheng-Yo Yen	
		16:10-16:20	Triple nerve neurotization for restoration of shoulder and elbow function in upper trunk avulsion Brachial plexus injury ----Using spinal accessory nerve, radial nerve triceps branch, and ulnar nerve	Cheng-Yo Yen	
		16:20-16:30	An Investigation on the Feasibility of Neurotization of Posterior Division of Median Nerve with Brachialis Branch of Musculocutaneous Nerve: Cadaver Study	Atakan Aydin	
		16:30-16:40	The role of elbow joints arthroplasty in brachial plexus injuries	Li-Chen Hsu	
		16:40-16:50	The role of shoulder joint arthroplasty in brachial plexus injuries	Li-Chen Hsu	
		16:50-17:00	The Paper Grip Test for the detection of intrinsic muscle weakness in the Foot	Willem J. Theuvenet	
16:30-17:30	Free Paper 17 (Research III)	17:00-17:10	Wound closure via therapeutic Ultrasonic treatment: cellular level study	Ming-I Chen	Aymeric YT Lim
		17:10-17:20	The Feasibility of Augmentational Functioning Muscle Transplantation (A-FMT) for Function and Aesthetics Purposes: Experimental Rat Study	Kuang-Te Chen	
19:00	Taiwanese Banquet Night	17:20-17:30	The reverse vascular pedicle hypothenar flap revisited	S. Romano	

Date: 2009/11/15, Sun

Venue: E-DA Hospital Conference Center (1F- Main Auditorium)

		Time	Topic	Speaker	Moderator
8:00-9:00	Plenary Lecture28	8:00-8:30	Perforator flaps reconstruction for upper extremity	Jeong Tae Kim	Chih-Hung Lin
	Plenary Lecture29	8:30-9:00	Pedicle perforator flap reconstruction for hand defect	Kanit Sanapanich	
9:00-10:00	Plenary Lecture30	9:00-9:30	Our strategy for different root avulsions in Brachial plexus injury	Somsak Leechavengvongs	Preecha Chailidapong
	Plenary Lecture31	9:30-10:00	Genetic Advances in Hand Anomaly	Gau-Tyan Lin	
10:00-10:30	Tea Break				
10:30-11:30	Plenary Lecture 32	10:30-10:40	Outcome measures in ulnar and median nerve injuries	Ton A. R. Schreuders	Yuan-Kun Tu
	Plenary Lecture 33	10:40-10:50	Functioning free-muscle transfer for delay presentation brachial plexus injury patients : siriraj procedure	Panupan Songcharon	
11:30-12:00					

Date: 2009/11/15, Sun

Venue: E-DA Hospital Conference Center (B1F- Meeting Room A)

		Time	Topic	Speaker	Moderator
8:10-9:30	APFSHT Free Paper	8:10-8:22	Modified thumb opposition splint for partial thumb amputation patient : a case report(237)	Ching - YingLu	
		8:22-8:34	The protocol for Elbow Flexion Reconstruction with Functioning Free Muscle Transplantation(131)	Shu-Jung Yu	
		8:34-8:46	Hand Rehabilitation Outcome Study Following Wrist Injury: Using QuickDASH as an Outcome Measure(230)	Kai Kit Wong	
		8:46-8:58	Subjective Aspect of Rehabilitation Effects among Taiwanese Hand Injured Patients(170)	Yee-Hwa Wu	
		8:58-9:10	Outcome of hand function and ADL level of CTS patients who had undergone Camitz transfer(196)	Yeung Po Shuen	
		9:10-9:30	Discussion		
9:30-10:00	Tea Break				
10:00-11:30	APFSHT Workshop				Somsak Leechavengvongs
11:30-12:00	Closing ceremony				Shang-Won Yu

Date: 2009/11/15, Sun

Venue: E-DA Hospital Conference Center (B1F- Meeting Room B)

		Time	Topic	Speaker	Moderator
8:00-9:00	Free Paper 18 (Wrist /Hand )	8:00-8:10	Patients with Wrist Fractures Are Less Likely to be Evaluated and Treated for Osteoporosis by Fracture-Treating Physicians than Those with Hip or Spine Fractures: A Korean National Epidemiologic Study	Hyun Sik Gong	Anthony Berger
		8:10-8:20	Surgical Treatment of Distal Radius Fracture using Locking Plate with MIPO method	Taichi Saito	
		8:20-8:30	The positional relationship between the "Watershed line" and the flexor tendon	Hiroataka Shimizu	
		8:30-8:40	Tuning the Motor Balance in the Fingers when performing a Tendon Transfer for Claw Hand Correction	Willem J. Theuvenet	
		8:40-8:50	New age website for the advancement of hand surgery	Vaikunthan Rajaratnam	
		8:50-9:00	PRIMARY AND SECONDARY SUBDERMAL POCKET PROCEDURE USED IN DIGITAL REPLANTATION WITH VENOUS CONGESTION	Tsan-Shiun Lin	
9:00-10:00	Hand/ Wrist disorder Symposium	9:00-9:30	Bone-Periosteum-Bone Graft Reconstruction for chronic instability of the thumb MCPJ	Tak-chuen Wong	Jui-Tien Shih
		9:30-10:00			
10:00-10:30	Tea Break				
10:30-11:30	Hand / Microsurgery Symposium	10:30-11:00	Combined Five Tissue Free Transfer for Reconstruction of Whole Hand Skin Avulsion Injury: The Results of Long Term Follow-up	Yong-Jun Rui	Chih-Hung Lin
		11:00-11:30	Clinical application of sural neur of asciocutaneous flaps based on peroneal artery and its perforator	Cun-Yi Fan	

Date: 2009/11/15, Sun

Venue: E-DA Hospital Conference Center (A1F- Meeting Room C)

		Time	Topic	Speaker	Moderator
8:00-9:00	Free Paper 19 ( Microsurgery III )	8:00-8:10	Relationship between postoperative sensation and advancement distance of oblique triangular flap	Kazufumi Sano	Yun-Cheng Chiang
		8:10-8:20	Reconstruction of Motor Function by Neuromuscular Free Flap with End-to-Side Neurotomy	Koung Moo Yang	
		8:20-8:30	Do we need to repair the nerves when replanting distal finger amputations?	Esther CS Chow	
		8:30-8:40	The Fascial Vascular Island flap: greater reach, lesser morbidity	Ter Chyan Tan	
		8:40-8:50	Segmented Ulnar Transposition to Defect of Ipsilateral Radius in the Forearm	Duke Whan Chung	
		8:50-9:00	Dendritic Cells Prolong Allograft Survival through Induction of T-cell Regulation and TGF-beta Expression in a Rodent Hind-Limb Allotransplantation Model	Chien-Chang Chen	
9:00-10:00	Joint / Arthritis Symposium	9:00-9:30	Proximal Humeral Fractures A comparison of Surgical Incisions	Chin-Hsien Wu	
		9:30-10:00	Prosthetic Replacement of Distal Ulna	Ping-Tak Chan	
10:00-10:30	Tea Break				
10:30-11:30	Free Paper 20 (Shoulder /Elbow)	10:30-10:40	Longitudinal linear fracture of the olecranon associated with Bado type III Monteggia fracture in children. A case report of three cases	Jiro Namba	
		10:40-10:50	Dual reconstruction of both the radial collateral ligament and lateral ulnar collateral ligament through the annular ligament in posterolateral rotatory instability of the elbow: a new technique	In-hyeok Rhyou	
		10:50-11:00	Results of Modified Quad Procedure to Improve Shoulder Abduction In Brachial Plexus Birth Palsy	Hari Venkatramani	
		11:00-11:10	Ulnar Nerve Anterior Transposition Using Modified Pronator Teres Fascial flap in Cubital Tunnel Syndrome	Dong WonLee	
		11:10-11:20	Treatment of cubital tunnel syndrome by medial epicondylectomy. A retrospective series of 47 cases	Hi-Shan Cheng	
		11:20-11:30	Recovery of Brachial Plexus Injury After Shoulder Dislocation	Arkaphat Kosiyatrakul
